Professor Joshua Lederberg
Department of Genetics
Stanford University School of Medicine
Stanford, California 94305

Dear Professor Lederberg:

Thank you for your kind letter of March 24, 1977 and your continuing interest in the history and affairs of Stuyvesant High School.

May I take this opportunity to invite you to be our guest speaker at our graduation exercises to be held at Carnegie Hall on Wednesday, June 22, 1977, at 9 A. M. Your distinguished presence, as our most illustrious alumnus, would be a source of inspiration to us all and particularly to our graduates whose interest and excellence in the sciences and mathematics have not diminished.

Stuyvesant, you will be happy to know, is rated first in the high schools of our Nation. Your Alma Mater could use your support in this critical hour when education for the intellectually gifted is under fire and being challenged in every quarter.

Hoping for your favorable reply, I remain

Yours truly,

GRF:EW
